

Dear Milton Tennis Club members,

We are happy to be working with MTC this year to enhance your Junior program. Ace Tennis has been recognized for the last 18 years by Tennis Canada as a Gold Development Tennis Center, the only academy/club to have achieved this. We hope to bring that same level of excellence to the growing community of Milton.

Posted on your website (and available for download) are a list of programs that will be offered at MTC this spring and summer. Fall 2019 programs will be established as we progress through the season. The majority of programs offered are for children ages 4-12 using progressive tennis. Children ages 10-18 can participate in group training programs which emphasize tactical development. Private and semi-private lessons will also be available. Our Ace programs have specific curriculum which is available to all. Players receive an evaluation based on that curriculum.

MTC is fortunate to have two full time Tennis Canada certified coaches to implement this junior program. Mike Donski, a graduate of McGill University, will be your Junior Head Coach working with club level Juniors, while former Davis Cup player and level 3 coach, Matt Klinger, will be the High Performance Junior Head Coach.

We will also offer free introductory classes, ladders, tournaments, teams and socials. Please feel free to contact me with any issues that cannot be resolved by Mike or Matt.

Thank you,

Douglas Burke,  
President Ace Tennis
